

## Academic Facts: Central Community School District

The State education system as a whole has made **real progress** in the past 15 years (more students at basic grade level, fewer dropouts, better school performance) with the implementation of the top-rated School & District Accountability System and other major state policies. But, significant gaps in student achievement remain. While many local school districts have made improvements, we have a long way to go in others. **What remains is a state with a quarter-million kids below minimum basic grade skills (standards which are actually lower than national proficiency), yearly dropouts still in the thousands, and many graduates underprepared for careers or college.** While the State continues to pursue more recent programs that support instructional quality and school choice for at-risk kids, it's clear that local education officials and educators make the difference in student learning. **Below is a snapshot of some key district academic indicators.**

- **“A” District Performance Grade** (2011-12)  
**124.1** DPS compared to **100.5** State Performance Score (0-200 point scale); based on state LEAP, iLEAP, dropouts and graduation index. The district ranked **#4** out of 69 local school districts.
- **96%** of the district's **3<sup>rd</sup> graders** at or above *Basic* grade level in **reading/language arts** knowledge and skills (iLEAP 2012)
- **93%** of the districts **4<sup>th</sup> graders** at or above *Basic* grade level in **reading/language arts** knowledge and skills; and **89%** at or above *Basic* grade level in **math** (LEAP 2012)
- **84%** of the districts **8<sup>th</sup> graders** at or above *Basic* grade skills and knowledge in **English/language arts**; **80%** at or above *Basic* grade level in **math**; and **80%** at or above *Basic* grade skills and knowledge in **science** (LEAP 2012)
- **82%** of high school students scored at or above *Basic* skills and knowledge in **science** on (Graduate Exit Exam, all initial test takers 2012).
- **National Percentile Ranks** (2010-11): 72<sup>nd</sup> for third graders, 64<sup>th</sup> for fifth graders, and 58<sup>th</sup> for seventh graders.
- **106 students dropped out** (7-12th graders) in the past three years on record (2008- 2010)
- Not available: % 9<sup>th</sup> grade freshmen who **graduated four years later** (2011).
- **22%** of college freshmen who graduated from this district's high schools had to take non-credit **remedial courses** (2010)
- **21.1** Average **ACT** score compared to **20.3** State Average and **21.1** National Average (2012)

**Note on State LEAP/iLEAP tests:** Grade-level skills and knowledge students achieve on these tests are rated as *Advanced, Mastery, Basic (minimum needed), Approaching Basic, and Unsatisfactory*. **The State's goal has been to educate all students to at least the minimum Basic grade level** - not a mastery of skills and knowledge, just *Basic*. **How many kids in your district have not been educated to this minimum level?** In addition, LA's *Basic* level is considered a **lower standard than national levels of Proficiency**. The good news is that LA is raising standards and transitioning from LEAP to "Common Core" tests (consortium of 45 states) in the next 1-2 years.

### SCHOOL PERFORMANCE GRADES (2011-12)

Letter Grade	# of Schools	% Students <i>Below</i> Basic
A	3	0-12%
B	1	13-24%
C	1	25-36%
D	0	37-61%
F	0	62-100%

*School performance scores/grades are currently based on state test scores, dropouts, graduation index, and new 'bonus points' for certain gains.*

### Additional district information:

- 49.9% of students were eligible for **free and reduced lunch** (2011), 66.2% State average
- \$9,141 was **spent per pupil** in this district compared to the \$10,622 state average (2010)
- 4,012 **students were enrolled** in 2010-11 compared to 3,119 in 2007-08 (1<sup>st</sup> year of district)
