

The Council for A Better Louisiana

Founded in 1962, CABL works to improve the quality of life for Louisiana citizens by raising awareness of critical issues, promoting sound public policy, fostering civic leadership, and championing government accountability.

The People's Agenda

is an ongoing voter education and legislative watchdog initiative sponsored by CABL. It is a multifaceted, nonpartisan effort established to ensure that the common concerns of Louisiana citizens become the focus of political debate during state elections, and that elected officials address those concerns after the elections.

Louisiana Fact Book for the 2003 Election Year

How Do We Measure Up...How Far Do We Have to Go

A recent U.S. president once said, "information is the oxygen of the modern age." What he meant is that information, like oxygen, is everywhere, and it has become vital to virtually everything we do.

Because we have so much information available to us, we find ourselves using it more to make decisions or come to understandings about things. Like anything else, the better the information we have, the better outcomes we can expect. That's the point of this little book in this all-important election year.

Information Please

This is a book full of data - about our state and our communities. It's geared toward the candidates who seek to lead Louisiana, and the voters who will elect them. Why? Because if we are to make decisions about how we will move forward as a state, we need information about where we stand now.

This book is more than just a collection of statistics. It is a picture of our state. Many of the individual data points are interesting by themselves, but follow them through from beginning to end and something much larger emerges - a snapshot of where Louisiana really stands. The information in this book points to the areas where we need to focus as a state, and the foundations upon which we can build. It suggests to candidates the things they should be talking about in this election, and to voters the kinds of questions they should be asking. It's information we all should have.

A Critical Election

CABL hopes to make this year's gubernatorial election one about substance. Through our nonpartisan People's Agenda election project, we will work to connect voters and candidates on the issues that are most important to Louisiana - through statewide voter surveys, candidate questionnaires, issues briefings and gubernatorial debates. For the information you need throughout this election year, we hope you'll look to *The People's Agenda* and visit our website at www.cabl.org.

Today, Louisiana is approaching a fork in the road. It is important that we ask ourselves which direction we want to go. Are we committed to doing the things we must to progress, or are we satisfied with where we are? This year we will decide.

It is CABL's hope that the information in this book will help candidates and voters develop an objective and accurate view of Louisiana's condition. Our larger goal, and that of *The People's Agenda*, is to encourage a substantive debate on what all the information shows are our state's most pressing issues.

How Busy Are Our Ports?

2000 National Ran

Total "port calls" to New Orleans 2nd
"Dry bulk" port calls to New Orleans 1st
Total tonnage handled at Louisiana ports 1st

In terms of tonnage handled, Louisiana has five of the top twelve ports in the U.S.

In 2000, Louisiana led the nation in terms of the tonnage of exports leaving our ports. Louisiana was third in the nation in terms of export value. This translated into 326.7 billion pounds of goods exported through Louisiana worth more than \$24 billion.

Running the Roads

Percent of state roads in poor condition Percent of deficient bridges Projected backlog in capital funding for roads and bridges over the next 5 years 27% 34%

\$2 billion

t is estimated that is costs Louisiana drivers \$439 extra per year for driving on roads that are deficient and in need of repair and improvement. That is almost twice the national average.

Did You Know?

The buying income of the population reachable via overnight truck delivery from LA is \$250 billion.

The Latin American Trade and Transportation Study conducted by the Southeastern Transportation Alliance projects world cargo through Louisiana ports will nearly double between 2000 and 2020.

Louisiana on the Information Superhighway?

	2001 Louisiana	National Rank
Households with Computers	45.7%	48th
Households with Internet Access	40.2%	47th

Pre-K - 12 Education

Will Our Kids Be Ready For the Future?

Who Attends Our Public Schools?

Number of students in public schools Percent of public school children who are minority Percent of public school children who are white '01-'02 School Year 725,027 51.2%¤ 48.8%

At 16.6%, Louisiana has the highest rate in the country of school children in non-public schools.

Approximately 7,800 at-risk fouryear olds in 2002 were not enrolled in any type of early childhood education program.

Are Our Students Making the Grade?

Percent of Students At or Above "Basic" Level on LEAP Test, 2002

4th Grade English Language Arts		57%
4th Grade Math		50%
8th Grade Language Arts	***	48%
8th Grade Math	* * * * *	42%

Since Louisiana's school accountability program began in 1998-99, student scores on the LEAP test have shown improvement, with the exception of Spring 2002 when there was a leveling off. The challenge for Louisiana is to continue to show growth and improvement over the long term.

Percent Passing Grade 10 Graduate Exit Exam, 2002

English Language Arts		81%
Math		70%
ACT Composite Score, 2002 (U.S. Average 20.8, out of 36)	19.6	7 0/0

♣ During the 2000-2001 school year 19,813 students in grades 7-12 dropped out of Louisiana public schools.

Are Our Schools Making the Grade?

School Performance Scores for the 2000 & 2001 Cycle

	Elementary / Middle	High School
Academic Excellence	in 1 School	3 Schools
Academic Distinction	14 Schools	iii 1 School
Academic Achievement	164 Schools	39 Schools
Above State Average	325 Schools	130 Schools
Academically Below the State Average	527 Schools	138 Schools
Academically Unacceptable	23 Schools	16 Schools

Update!

Schools are rated on a two-year cycle. In the 2000-2001 cycle, 69.6% of K-8 schools met or exceeded their two-year growth target for performance. Today, halfway through the current rating cycle, only 42% of K-8 schools and 38% of high schools have met at least half of their two-year growth target. This means that many of our already low-performing schools are in danger of serious failure.

Red Alert on Louisiana Schools

Failed Schools 23 80 In danger of becoming failed schools

Where are They?

Our Teachers

Average teacher salary '01 - '02 Percentage of uncertified teachers Percentage of new teachers in public schools leaving their position within three years 43%

\$36,328 15.6%

The Southern average for teacher pay is \$39,521. When adjusted for cost of living, years of service, etc. the average is \$37,973.

How Much Do We Spend?

During the 2002-2003 school year, Louisiana spent more than \$2.5 billion of State General Funds on elementary and secondary education.

Post-Secondary Education

Are We Building a Knowledge-based Workforce?

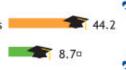

From Start to Finish

Number of first-time freshmen, Fall 2001	20,787
First-time college freshmen who graduated from	
public high schools enrolled in remedial courses, Fall 2001	39%□
Six-year graduation rate for Louisiana public colleges and universities, 2002	39%
Southeast region graduation rate, 2001	48%

Graduation rates at our universities vary considerably. The highest rates are at LSU Baton Rouge with 62% and Louisiana Tech with 57%. Eight regional universities have rates in the 30 - 36% range, and three colleges range between 12 - 29%.

Four-Year vs. Two-Year: Where Do We Go?

2000 enrollment rate of four-year universities, per 1,000 adults 2000 enrollment rate of two-year colleges, per 1,000 adults

In 2000, Louisiana had the lowest percentage of its population in the nation with a two-year associate degree.

But enrollment in Louisiana two-year colleges grew from 28,229 in 2000 to 36,470 in 2002.

Louisiana's Institutions of Higher Education

Number of four-year universities Number of two-year universities Number of community colleges Number of technical college campuses

Diplomas = Jobs: 2020 U.S. Workforce Projection

Jobs requiring a four-year college degree

Jobs requiring a two-year associate degree or advanced training

Jobs requiring minimal skills

How Much Do We Spend?

Louisiana currently spends more than \$960 million of State General Funds on higher education.

Altogether, Louisiana spends 53% of its State General Funds on Pre-K-12 public education and postsecondary education.

Public Safety

The Costs of High Poverty and Low Education

Crime: The Hard Numbers

2001 National Rank

Murder rate per 100,000 habitants 1st Violent crime rate per 100,000 habitants 6th State prisoner incarceration rate 1st

Where Is the Crime?

MSA	Violent Crime Rate, 2001 (per 100,000 pop.)
Monroe	887.0
New Orleans	786.7
Alexandria	780.3
Shreveport - Bossier City	707.7
Baton Rouge	699.7
Lafayette	607.8
Lake Charles	585.0
Houma	566.6

State Prisoners: By the Numbers

Adult state prison population, 2002	36,328
Percent of state prisoners with sentences over 10 years	37.6%
Percent of state prisoners serving life sentences	10.2%
Percent of state prisoners 50 years and older	8.6%
Number of state prisoners on death row	92

Louisiana spends \$33.65 per day for a total of \$12,282.25 per year for each prisoner in a state institution.

What Are They in For?

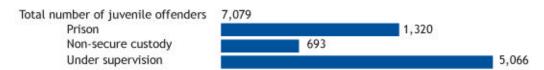

How Much Do We Spend?

During 2002-2003, Louisiana spent \$594 million of State General Funds on corrections.

Crime and Our Kids

- In 1999, Louisiana had the second-highest juvenile incarceration rate in the nation. Of those imprisoned, 27% had committed violent crimes, while 73% were there for other types of offenses.
- For each youthful offender in a juvenile jail, the state of Louisiana spends \$157 per day for a total of \$57,305 per year.

Health

Costly Programs, Disappointing Outcomes

Births: By the Numbers

	Louisiana	2001 National Rank
Birth Rate (per 1,000 inhabitants)	14.9	14th
Percent of births to unmarried mothers	46.3%	1st
Birth rates for teenage mothers (per 1,000 teenage women)	57.8	9th
Percent of low birthweight births	10.4%	2nd
Infant Mortality Rate (per 1,000 live births)	9.0	5th

Insurance: Are We Covered?

	LA	2001 National Rank	2001 Southern Rank
Percent of population without health insurance	19.3%	47th	12th
Percent of children without health insurance	12.7%	41st	10th

Since 1999, 207,535 children have received health coverage under the LaCHIP program, which helps provide health insurance coverage for children in low-income families.

Where We Go for Healthcare

Louisiana ranks seventh in the nation in terms of money spent per capita at hospitals, but we're only 30th when it comes to money spent on physicians and other professional services. Why? One reason may be that we have one of the highest percentages in the nation of citizens who lack access to primary care.

Health Report

2001 National Rank

	Rate of Cases	Age-Adjusted Death Rate
Diabetes	10th	1st
HIV / AIDS	10th	5th
Cancer	17th	1st

Louisiana had an overall, ageadjusted death rate in 2001 of 1,020.1 per 100,000 residents. This is the second highest in the nation, meaning our citizens die much more prematurely than those in other states.

The State of Medicaid

Percent of LA population receiving Medicaid, 2000	16.2%
Percent of U.S. population receiving Medicaid, 2000	11.9%
Percent of births in Louisiana financed by Medicaid, 1999	63%
Medicaid enrollees, State Fiscal Year '00-'01	781,073
Total Medicaid budget, State Fiscal Year '03	\$4.4 billion
Total Medicaid budget from State General Funds, State Fiscal Year '03	\$864.9 million

Number of Publicly Funded Health Facilities

How Much Do We Spend?

During 2002-2003, Louisiana will spend \$1.2 billion in State General Funds on public health and hospitals, including Medicaid. Overall, 18% of Louisiana's State General Funds will be spent in this area.

Environment

Louisiana, Worth Protecting

Louisiana's Wetlands Are America's Wetlands

Forty percent of U.S. wetlands are in Louisiana.

Eighty percent of the coastal wetland loss in the entire U.S. occurs in Louisiana.

Louisiana's 6.5 million acres of wetlands are the largest in the nation.

Louisiana loses 25-35 square miles of wetlands per year. Since 1930, the amount of wetlands lost in Louisiana is greater than the size of Rhode Island.

Wetlands and Wildlife

Ninety-five percent of marine species in the Gulf of Mexico spend all or part of their lifecycle in Louisiana wetlands.

Fifteen percent of the North American waterfowl population depend on Louisiana wetlands.

Wetlands and Economics

Over 30% percent of the nation's fisheries catch comes from Louisiana wetlands.

Over 25% percent of oil and gas consumed in the U.S. travels through Louisiana wetlands.

The Coast 2050 plan for restoring coastal Louisiana is estimated to cost \$14 billion.

Environmental Quality

Sank

The Qualities of Our Life

Louisiana Lagniappe

Clearly, Louisiana faces many challenges and has many serious issues to address. But the statistical data doesn't reveal the many other attributes about Louisiana, our people and culture that are also important. These qualities are often hard to quantify, but some do have measurable impacts, and they help complete the picture of life in Louisiana.

We Are Generous.

According to the Catalogue for Philanthropy, Louisiana citizens are fifth in the nation in the percentage of their earnings given to charity.

We Care About Our History.

In 2000, Louisiana led the nation in money spent for historic preservation.

We Support the Arts.

Louisiana citizens and businesses contribute nearly \$90 million annually to the arts.

We Have a Literary Tradition.

Twelve writers with ties to Louisiana have won the Pulitzer Prize for literature.

We Have a Musical Tradition.

A total of 35 artists with ties to Louisiana have won Grammy awards in the categories of jazz, blues, folk, country and gospel.

We Have a Culinary Tradition.

We spend more than \$4 billion a year at restaurants.

We Corner the Market on Crawfish.

More than 90% of the crawfish harvested in the U.S. comes from Louisiana.

And Shrimp.

More than 100 million pounds of shrimp are caught each year in Louisiana's fisheries.

And Crabs.

More than 40 million pounds come from Louisiana.

We Pass a Good Time.

Louisiana hosts more than 600 festivals every year.

And Others Come to Join Us.

About 16 million people a year come to visit Louisiana.
