

## Academic Facts: Ouachita Parish School District

The State education system as a whole has made **real progress** in the past 15 years (more students at basic grade level, fewer dropouts, better school performance) with the implementation of the top-rated School & District Accountability System and other major state policies. But, significant gaps in student achievement remain. While many local school districts have made improvements, we have a long way to go in others. **What remains is a state with a quarter-million kids below minimum basic grade skills (standards which are actually lower than national proficiency), yearly dropouts still in the thousands, and many graduates underprepared for careers or college.** While the State continues to pursue more recent programs that support instructional quality and school choice for at-risk kids, it's clear that local education officials and educators make the difference in student learning. **Below is a snapshot of some key district academic indicators.**

- **“B” District Performance Grade** (2011-12) **115.9** DPS compared to **100.5** State Performance Score (0-200 point scale); based on state LEAP, iLEAP, dropouts and graduation index. The district ranked **#15** out of 69 local school districts.
- **77%** of the district's **3<sup>rd</sup> graders** at or above *Basic* grade level in **reading/language arts** knowledge and skills (iLEAP 2012)
- **85%** of the districts **4<sup>th</sup> graders** at or above *Basic* grade level in **reading/language arts** knowledge and skills; and **82%** at or above *Basic* grade level in **math** (LEAP 2012)
- **76%** of the districts **8<sup>th</sup> graders** at or above *Basic* grade skills and knowledge in **English/language arts**; **71%** at or above *Basic* grade level in **math**; and **71%** at or above *Basic* grade skills and knowledge in **science** (LEAP 2012)
- **71%** of high school students scored at or above *Basic* skills and knowledge in **science** on (Graduate Exit Exam, all initial test takers 2012).
- **National Percentile Ranks** (2010-11): **58<sup>th</sup>** for third graders, **63<sup>rd</sup>** for fifth graders, and **59<sup>th</sup>** for seventh graders.
- **1,713 students dropped out** (7-12th graders) in the past five years on record (2006- 2010)
- For 9<sup>th</sup> grade freshmen, **72.9% graduated four years later** (2011).
- **30%** of college freshmen who graduated from this district's high schools had to take non-credit **remedial courses** (2010)
- **20.5** Average **ACT** score compared to **20.3** State Average and **21.1** National Average (2012)

**Note on State LEAP/iLEAP tests:** Grade-level skills and knowledge students achieve on these tests are rated as *Advanced, Mastery, Basic (minimum needed), Approaching Basic, and Unsatisfactory*. **The State's goal has been to educate all students to at least the minimum Basic grade level - not a mastery of skills and knowledge, just Basic. How many kids in your district have not been educated to this minimum level?** In addition, LA's *Basic* level is considered a **lower standard than national levels of Proficiency**. The good news is that LA is raising standards and transitioning from LEAP to "Common Core" tests (consortium of 45 states) in the next 1-2 years.

### SCHOOL PERFORMANCE GRADES (2011-12)

Letter Grade	# of Schools	% Students <i>Below</i> Basic
A	8	0-12%
B	13	13-24%
C	8	25-36%
D	6	37-61%
F	1	62-100%

*School performance scores/grades are currently based on state test scores, dropouts, graduation index, and new 'bonus points' for certain gains.*

### Additional district information:

- 56.9% of students were eligible for **free and reduced lunch** (2011)
- \$9,562 was **spent per pupil** in this district compared to the \$10,622 state average (2010)
- 19,680 **students were enrolled** in 2010-11 compared to 18,646 in 2005-06
